HIGH PERFORMANCE LED LIGHTING

RAPTOR NITRO MAXX ATOM

AUSTRALIAN MADE

CELEBRATING
20 YEARS

Image taken by Adam Edwards Photography

Australia's highest performing LED driving lights and light bars, designed and manufactured right here in Australia.

Image taken by Adam Edwards Photography.

For the past 20 years here at Ultra Vision, we have been using innovation to design and manufacture our LED driving lights and light bars, in order to bring our customers market leading performance and quality. Over this time we have continued to grow and develop our operations, our product range, and our network of dealers, supplying our lights to customers all over Australia and beyond.

Being Australian based, we know what our customers need to take on the toughest environments, from rocky mountain paths to sandy beaches, to the red dirt of the outback and beyond. Researching, developing and manufacturing our products in our own factory gives us complete control, so that we can be sure every set of lights we make is up to the incredibly high standards that we set ourselves, and able to handle some of the toughest terrain in the world.

We are always striving to be at the forefront when it comes to lighting, which is why we're constantly innovating. Whether it's the components we use on our PCB boards that we create in-house, or our integrated lighting solutions that offer you new ways to get the power of Ultra Vision on your vehicle, we want to push the boundaries of what's possible when it comes to performance and quality.

But most of all, we get excited about bringing you lights that will blow you away with their beam distance and width, lights that will be with you on every journey you take, to keep you safe and help you stay on the road and help you get off the beaten track to discover everything Australia has to offer.

Table of Contents

RAPTOR

Setting the Standard in Performance

Our Raptor range of Driving Lights and Light Bars set the standard in performance. From weekend warriors who like to tear up the trails and escape it all, to avid adventurers who are heading off on an epic journey across Australia, our Raptor range offers top quality performance for incredible value. With premium features such as a superior optic design that produces excellent distance and width and high pressure die-cast aluminium housing and high impact poly-carbonate lenses, they really do have it all. Our products are designed and manufactured right here in Australia, so we know what it takes to withstand Australia's harshest conditions – the Raptor range is ready for anything.

To make sure you are never left in the dark, the Raptor range come standard in 5700k, but as an option there is also 4000k warm white available which is great for dusty, foggy and snowy conditions. The entire Raptor range come with a 5-year warranty for your peace of mind, with a lifetime warranty on the stainless steel tig welded bracket you have the perfect package for your rig to give you the power to light up the way!

5 YEARS WARRANTY

AUSTRALIAN MADE

LIFETIME WARRANTY — ON ALL DRIVING LIGHT & LIGHT BAR BRACKETS

RAPTOR

The RAPTOR 70W LED driving lights feature a high pressure die-cast aluminium housing and high impact polycarbonate lenses. The superior optic design gives a combination beam with both good distance and width from one lamp type. All RAPTOR lamps come complete with a protective lens cover and easy-adjust mounting bracket. To make sure you get the right option for your own driving comfort, the lamps are available with either 4000k or 5700k Colour Temperature.

Warranties For Extra Peace of Mind

Our team is based in Swan Hill, Victoria, so not only are we here to give you the best support possible, but we also know how gruelling off-roading in Australia can be. We build our products to take on anything you can throw at them, and we stand behind this quality too.

Our Raptor, Nitro Maxx and Atom ranges are covered by a 5 year warranty. We're confident that you'll love the quality and performance of your new Ultra Vision lights – so much so that if they don't meet your expectations, we offer a 30 day money back guarantee.

Not only that, but for ultimate peace of mind you can register with us to extend your warranty by a full year, so you know that you're covered for plenty of journeys to come and can take on your next adventure with confidence.

1 YEAR BONUS EXTENDED WARRANTY*

Terms & Conditions Apply.

RAPTOR   **NITRO MAXX**   **ATOM**

NITRO MAXX

Performance that leads, not follows

Get ready to light up the night as you take on any terrain and conditions to discover all the hidden gems that Australia has to offer…get off the tarmac or onto the rough stuff, from the sands of remote beaches to the mud of the wetlands or rocky mountain tracks, take it all on with performance that leads, not follows.

Thanks to recent breakthroughs in LED technology, combined with Ultra Vision's innovative reflector design and registered Widr® optic, the Nitro Maxx range offers the best distance and width currently available from any driving lights or light bars on the market.
Available in 2 colour temperatures and built to take on the toughest punishment and still produce premium performance, there's nothing that they can't handle. Made in Australia, for Australia and supplied with a 5-year warranty on lights and a lifetime warranty on bracketry; you can rely on Nitro Maxx to turn night into day.

Don't miss anything on your next adventure, find the perfect camping spot or get to that illusive lookout! Get the premium power you need from Nitro Maxx driving lights and light bars and let Ultra Vision light the way.

5 YEARS WARRANTY

AUSTRALIAN MADE

LIFETIME WARRANTY ON ALL DRIVING LIGHT & LIGHT BAR BRACKETS

NITRO MAXX

The Nitro 80 Maxx driving lights include the sophisticated Contrl® optics, significantly increasing distance while the central Widr® optic provides approximately 170 Deg of width. The stainless steel mounting system makes adjustment simple but able to withstand high levels of vibration. Clear lens covers, a wiring harness and anti-theft nuts are all included.

5 YEARS WARRANTY

NITRO MAXX

The NITRO 140 Maxx is the latest generation of high performance LED lighting. Utilising a sophisticated Contrl® optic the light usage is optimised to give width and distance from one reflector. The Widr® technology further increases the width, but still giving more than 1 lux at 1.6kms. The slim body design allows for fitment to the majority of vehicles and the reduced weight further improves options. Utilising the proven stainless steel mounting bracket ensures years of trouble free life. Units are supplied complete with clear polycarbonate lens covers, wiring harness and anti-theft nuts.
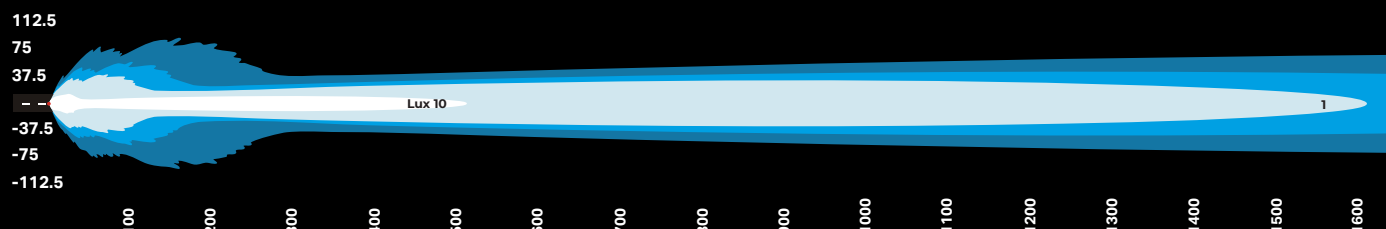

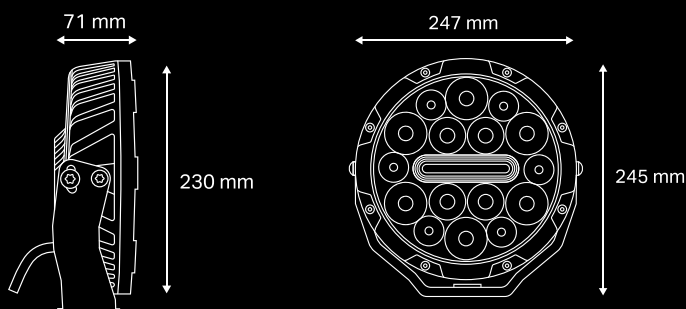

5 YEARS WARRANTY

NITRO MAXX

The Nitro 180 Maxx Driving Lights set an entirely new standard of performance for LED driving lights. Utilising the sophisticated Contrl® Optics the light output is optimised to give an unmatched penetrating beam. The Widr® optic further increases the width of the beam by 72% than its previous design at 100m distance. In addition, a Hi/lo function reduces the overall power to 20% giving a wide even flood of light for more built up areas or when approaching traffic that is still a distance away. The Nitro 180 driving lights are the complete package, featuring a heavy duty wiring harness, anti-theft nuts, polycarbonate lens covers and the proven 4mm stainless steel tig welded bracket featuring a lifetime warranty. With these lights you're set to take on anything that comes your way.

NITRO MAXX

Our new range of single row light bars are here. We are excited to announce this new addition to our premium Nitro Maxx range, a light bar that offers powerful performance and fits in with the sleek, modern design like the rest of the Nitro Maxx family. A true all-rounder in a compact and lightweight package thanks to our Contrl® and Widr® Optics, these slim light bars give you unmatched width and distance. Made of high-quality extruded aluminium, they're built tough and backed by our 5-year warranty, ready for any adventure, any time.

Performance that leads, not follows

The Nitro Maxx light bars are our premium choice in high performance LED lighting. Featuring the Widr® optic for width and a Contrl® optic for distance, the Nitro Maxx Light Bar takes performance to another level. Both side and base mounts are available, ensuring that fitment is simple in any application.

A polycarbonate outer lens cover, complete wiring harness and anti-theft nuts are supplied with each light bar. Please specify base or side mounting at the time of ordering.

Chrome Rim light bars also available.

AUSTRALIAN MADE

NITRO SMART

High performance all round driving light

Not every vehicle is designed for off-road use or has a bullbar. However, driving lights have evolved for this market making it difficult to fit them to standard vehicles without compromising the original style and compliance of the vehicle. This poses a problem for many drivers who need auxiliary lighting.

The Nitro Smart has been designed to give drivers the opportunity of improving visibility and safety whilst driving, without affecting the original image of your vehicle. Nitro Smart has been designed to be fitted directly into the Jeep Wrangler, but can also be integrated with other bullbars and bumpers to provide significantly more light output. A pair of these lamps will deliver 1 Lux at 500 metres from the driving light function.

5 YEARS WARRANTY

AUSTRALIAN MADE

Features include

- LED Driving Light
- Fog
- DRL
- Indicator

Direct replacement with Jeep Wrangler OEM fog lamp.

INTEGRATION
& BEHIND-GRILLE
KITS

Seamlessly combine the power of Ultra Vision and your vehicle.

If you're looking to upgrade your vehicle's factory lighting with the power of Ultra Vision, but want to keep that clean look to your pride and joy, our Integration and Behind Grille Kits are the answer.

Cleverly designed for a bespoke fit, they offer all the innovation, performance and quality that Ultra Vision lights are known for, without the need to install a bull or nudge bar to your vehicle. Combining the technology you've come to expect in our lights with fully integrated and behind the grille mounting options, each kit also comes with a wiring harness and fitting guide, allowing you to light up the night in a way that suits you and your driving needs.

Our Integration and Behind Grille Kits not only look great and perform even better, they are also a fantastic way to help you stay safe, see and be seen out on the road no matter what the driving conditions.

Available for a wide range of the most popular makes and models, including Chevrolet, Ford, Isuzu, Jeep, Mazda, Mitsubishi, Nissan, Ram, Toyota and Volkswagen vehicles.

ATOM

Designed and Manufactured in the Mallee.

Australia has always been the place where new innovations in agricultural technology have taken root. From the 19th century stump jump plough to the 21st century 60Ft header front, we have always found ways to make life on the land easier and more efficient. Today Ultra Vision Lighting is leading the way in LED lighting innovations for the agricultural sector. As a family owned manufacturing business in the Mallee, we understand the harsh regional environments. So we take great care in creating quality lights that are built to last.

5 YEARS WARRANTY

AUSTRALIAN MADE

ATOM 25

ATOM LED work lamps have proved their high performance and rugged construction in some of the harshest environments. The ATOM 25W can cover a wide range of applications for lighting on small to medium tractors, harvester augers and work lamps on utes. The latest in our line-up of ATOM lights is the recessed ATOM 25 which can be used effectively as auxiliary reverse lighting. The ultra-high output leads to outstanding performance, despite its compact size.

5 YEARS WARRANTY

Specifications

PRODUCT	ATOM 25
Wattage	25 Watt
Light Source	6 x Hi-output LEDs
Light Output - Raw	2,900 Lumens
Light Output - Effective	2,328 Lumens
Voltage	9-36V
Current Draw	1A
Operating Temp	-40°C to +80°C
Waterproof Rating	IP69
Connector Type	2 Pin Deutsch
Housing	Die Cast Alloy
Lens Construction	Polycarbonate
Bracket	3mm Stainless Steel
Colour Temp	3000K, 4000K or 5700K
Lifespan	50,000 Hours
Dimensions	92 x 88 x 58mm
Net Weight	460g
EMC Rating	CISPR 25 Class 3
Mounting Suitable	Upright and Pendant
Beams Available	25 & 60 deg
Warranty	5 Years

Industry Specific Lighting

We understand that sometimes your industry requires a more specific light. At Ultra Vision Lighting we have a variety of lighting options to suit your agricultural requirements.

Sprayer Blue LED Lamp

We manufacturer a range of Blue LED work lights to suit various sprayer and misting applications.

DVA25LEDBLUE – Atom 25 Blue LED - Euro Beam
Ideal for broadacre boom sprayers

DVA25LEDBLUE/WF – Atom 25 Blue LED - Wide Flood
Ideal for orchid sprayers

**Specifications are the same as Atom 25 on Pg25
Sprayer Blue also available in Atom 45**

Beehive Red LED Lamp

We manufacture the Atom 25 LED range in Red LED for Beekeepers. The Red LED colour allows you to safely move beehives at night reducing the possibilities of upsetting the bees.

DVA25LEDREDEU/B Atom 25 RED LED – Euro Beam

DVA25LEDREDWF/B Atom 25 RED LED – Wide Flood

Specifications are the same as Atom 25 on Pg25

Nut Harvest 3000K LED Lamp

Nut farm harvesting has a unique night-time dust. Our industry feedback has revealed the 3000K temperature will best suit the lighting application. Talk to a sales representative about an Ultra Vision 3000K work lamp to suit your harvesting application.
